We are happy to announce the launch of the Mining Insurance Group's website!

As you may know, MIG is a non-commercial group organised by a committee drawn from professionals within the Mining Industry sector. This group is a cooperative forum working mainly to improve and develop processes in underwriting, risk management and claims. The forum will also enable the dissemination of knowledge and the exchange of information and experience.

Our newly launched website can be found here ([click link](#)). This website will develop gradually as the work of the group progresses over the coming years.

As you will see a number of companies are [already members of MIG](#) but we would welcome more members to help in our work. [MIG Membership information can be found here.](#)

We will produce newsletters and information about our work. If you wish to opt out, you will find a link below to unsubscribe below.

We will also publish information on our [Linkedin page](#) so feel free to follow our page and be kept-up-to-date.
